Dear Hiring Team,

I am interested in senior opportunities in BAS/BMS graphics, front-end design, and smart-building visualization. With more than 20 years of visual design experience, including extensive experience specializing in building automation since 2019, I bring a distinctive combination of design expertise, technical understanding, and systems-focused thinking.

My formal background in graphic design shapes how I approach building automation interfaces. In addition to technical accuracy, I focus on usability, visual clarity, consistency, and maintainability—helping operators, technicians, and facility teams understand complex building systems quickly and confidently.

At Siemens NOC, I lead BAS graphics and front-end design across multiple client projects. My responsibilities include developing HVAC and building-system interfaces, translating technical requirements into intuitive visual experiences, coordinating with project managers, engineers, and programmers, and maintaining consistent graphic standards across platforms. I have hands-on experience with Siemens Desigo CC, Tridium Niagara 4, and BACnet-based building automation environments.

Previously, at Therma, I developed Niagara 4-based BAS interfaces and created the visual design system used across the platform. I also established reusable templates and consistent workflows that improved graphic quality, reduced rework, and supported more efficient project delivery.

Throughout my career, I have focused on bridging the gap between engineering requirements and effective system visualization. I create BAS graphics that are technically accurate, intuitive for end users, scalable across projects, and practical to maintain throughout the system lifecycle.

I would welcome the opportunity to bring my experience in BAS graphics, UI design, visual standardization, and cross-functional collaboration to a forward-thinking smart-buildings or building-automation team.

Thank you for your consideration. I look forward to discussing how my background and perspective could support your organization.

Sincerely,
Seok-Ho Han

Seok-Ho Han

Soft Skills

Artistic & Creative

Creative Sr. Graphic & UX/UI Designer with 20+ years of experience developing visually compelling and strategically effective design solutions. Skilled in bridging the gap between **aesthetics and usability**, I've led projects from **concept to deployment** across industries—from broadcast media to building automation systems.

Known for my **strategic thinking, brand consistency, and mentoring leadership**, I bring hands-on expertise in **front-end interface design, UX optimization, and cross-functional collaboration** to deliver clean, intuitive, and impactful visual experiences.

Professional Experience

Sr. Graphic Designer

Siemens NOC **2024 – Current**

- ✓ Lead visual and UX/UI design for front-end system interfaces supporting multi-client building automation platforms.
- ✓ Collaborated with project managers and engineers to translate complex system data into **intuitive, interactive design**.
- ✓ Mentored junior and mid-level designers on visual standards, UX principles, and efficient workflow processes.

Graphic Design Lead/UX/UI Designer

Therma (A Legence Company) **2022 – 2024**

- ✓ Directed the **visual identity and interface consistency** for multiple client systems, ensuring clarity, scalability, and usability.
- ✓ Consulted with clients to define interface logic, user pathways, and responsive layout systems.
- ✓ Oversaw an outsourced design team (EMBA); implemented visual guidelines that improved project turnaround by 30%.
- ✓ Mentored mid-level designers, reinforcing **design systems thinking** and consistent documentation practices.

Problem Solving
Time Management
Communication
Team Leadership
Collaboration
Brand Strategy
Cross-Functional collaboration
Mentorship

Mid-Level Graphic Designer

Siemens NOC **2021 – 2022**

- ✓ Collaborated with UI developers to design and refine control system interfaces.
- ✓ Integrated branding and usability improvements into legacy design frameworks.
- ✓ Supported front-end programming and asset creation to enhance performance and visual clarity.

Graphic Designer

Siemens **2019 – 2021**

- ✓ Worked closely w/ project team to design front end systems for various clients.

Graphic Designer/Head Master

Meedo Taekwondo **2013 – 2018**

- ✓ Created all branding, promotional materials, and digital graphics for marketing campaigns.
- ✓ Led a team of six while managing daily studio operations and strategic growth initiatives.
- ✓ Designed and implemented a **new visual identity** that boosted enrollment and community engagement.

Graphic Designer/Motion Designer

NBC/Universal/Telemundo **2001 – 2009**

- ✓ Produced on-air graphic packages for live news, special segments, and promotional campaigns.
- ✓ Designed storyboards and animated sequences for commercials and show intros.
- ✓ Partnered with the marketing team to create **multi-platform visual campaigns** seen across Los Angeles.
- ✓ Maintained brand consistency across all print, motion, and broadcast deliverables.

Education

Brooks College – *Associate Degree in Graphic Design*

- ➢ Graduated with High Honors (GPA 4.0)
- ➢ Alpha Beta Gamma Honors Society Member
